Professional Internship

Seeking professional internship as a Software Developer. Currently learning at King's College Java, Python, C++ JavaScript, HTML so I have a working knowledge that I am cementing to my prior summer internship at EVRAZ Global in the technology department.

Work Experience

23.07.2019 - 30.08.2019 Intern in EVRAZ Technology Ltd.

As an intern, I implemented a web-service (Java, IBM Domino) and a GUI in an electronic document management system (HTML, JavaScript, IBM Domino) that automated enrolment of the new employees. Simultaneously, my permanent tasks were writing SQL queries (SQL) and SAP web contract maintenance (JavaScript).

Skills

- English – C1+ level competency including technical language
- Cross-cultural communication skills
- Java, C++, Scala programming – operational knowledge
- SQL – operational knowledge
- Python, HTML, JavaScript, CSS – constantly improving

Education

2018	Bachelor's of Computer Science, King's College London (graduate 2021).
2018	Advanced levels: Math(A); Further Math(B); Russian(A); Physics(B); additional Astrophysics Module(A).
2017	Carnegie Mellon University, USA (Two-months Pre-College program): Principles of Computing; Introduction to Electronic and Computer Engineering.
2016	North Western University, USA, Mini MBA program.
2016	Queen Ethelburgh's College, UK, GCSE: seven GCSE's A - B grade.

Awards

- Golden Crest Award – team project in Engineering Education Scheme with Siemens on railway maintenance.
- Silver Certificate – UK Intermediate Maths Challenge.
